Nobody Handles Doors Better Than We Do

0141 - 885 - 9090

www.compositedoorgroup.co.uk

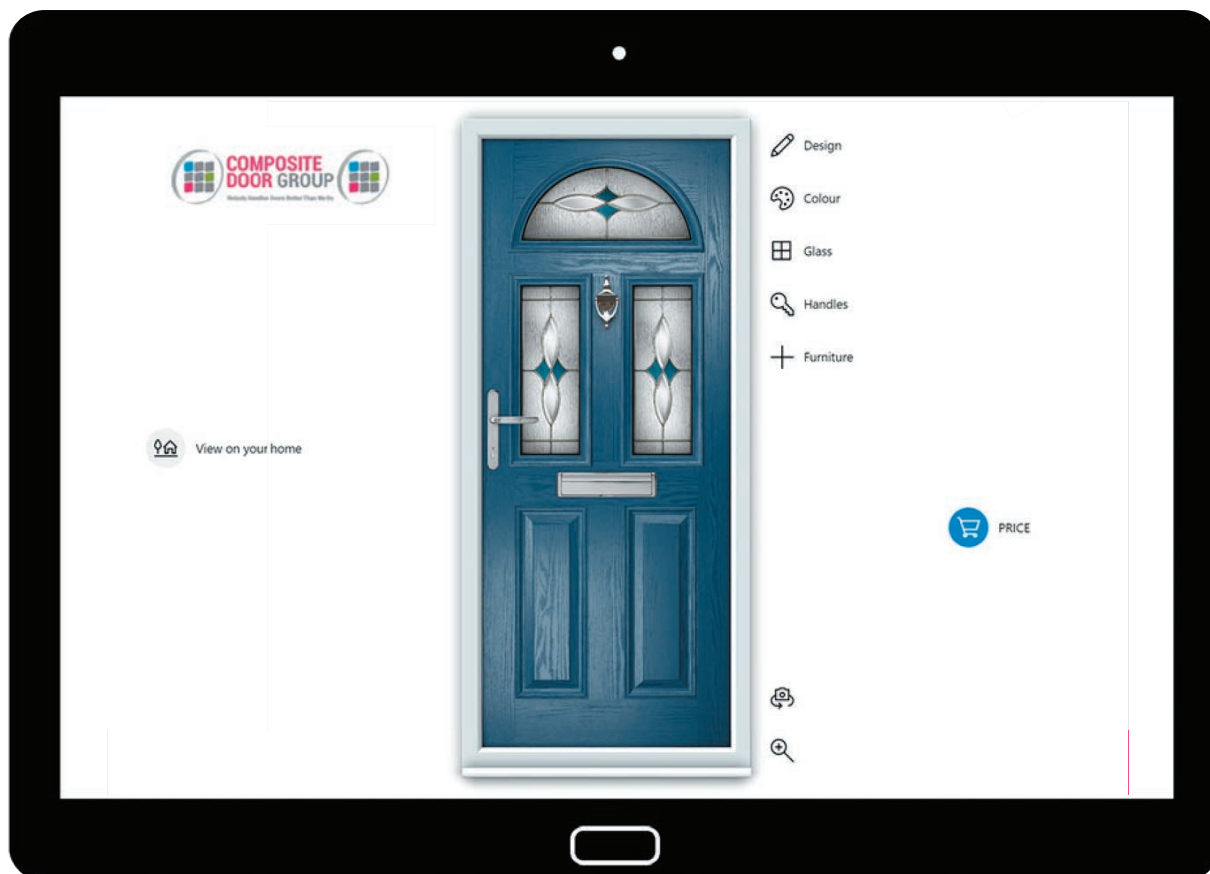

Dear Customer,

We are proud to present the Composite Door Group Collection. We think you will agree that it has been worth waiting for. It is by a long measure, in our opinion, the finest composite door on the market today. In ten years research and development we have left no stone unturned in our quest for the perfect product.

Our approach to this was innovative and radical. The composition of the door differs from all others in its MONOCOQUE structure. This structure gives it a massive strength-to weight ratio and is protected in Europe by patent number 1766176 (Patents in the USA and Canada pending). Apart from the monocoque design there are a lot of other innovative features to this door. For instance, we have designed and manufactured a hinge exclusively for this door, so it is visually concealed unlike the more commonly used flag hinge, which is unsightly. Our glazing system with beads that look like wood is also very attractive. As is evident from the following pages, our wood grain finish is superb, due to the fact that all our tooling is made in house. In a very unique process we replicate exactly the finish of a real oak door, 100% true to the original. Another feature of the door is its excellent U value rating of 0.205 as tested by the "Lambda" testing method.

In addition to this, all our glass is triple glazed and we use edgetech warm edge seals for the lowest U value possible of 0.7. Combined with our new range of Patinated glass designs that consists of sandblasted glass with a clear boarder that will give you modern and contemporary design, our patinated design is achieved through sandblasting not by films or resins that is completely environmentally friendly that will last a lifetime.

We are dedicated to the pursuit of excellence and service to our loyal customers. We take this opportunity to thank you for your continued support. When we say the customer is king it is not an empty platitude, - we mean it!

www.compositedoorgroup.co.uk

Our new Patinated technique has allowed us to create elegant and contemporary glass designs to suit our vast range of door styles

*Door Type - Cambridge Glass Type - TG501 Patinated
(Min. Glass Width 170 mm) Colour Bog Oak*
